

KROY

Identify with Kroy

LW-700 Desktop printer

Print:

- * Wire & Cable markers
- * Heat shrink tubing
- * Labels -

**On-site, on-demand
printing or at your
desktop**

**Easy to install - snap in
self contained supply
cartridges**

Stand - alone or connected to your Mac or PC you can print labels, heat shrink tubing & cable markers in a snap.

Battery or mains powered, this compact printer has a small footprint, prints labels "on the fly" to complete your identification tasks either on - site & on - demand or from your desk-top.

Easy to use, the LW-700 with it's QWERTY keyboard layout makes short work of those identification tasks and gives a smart professional finish to your work.

Convenient snap in supply cartridges lets you change tape colours or supply type in seconds.

Ideal for labelling assets, files & folders, cables & wires, parts bins, laboratory samples, components, electrical cabinets, patch panels, price tags, racking & shelving and much more.....
